# Wireless Six-Button Remote Control

## System Control at Your Fingertips

If you value convenience and ease of operation, you will love the new 5805-6 Six-Button Wireless Remote Control. Similar in size to a car alarm remote, it offers most of the features of a traditional security keypad with system control at your fingertips.

The press of a single button lets you operate lights, appliances and even garage doors. And the compact, lightweight design allows the remote to travel with you, easily fitting onto any keychain or in your pocket.

### Features:

- Arms and disarms your security system
- Remote control of lights, appliances and garage doors
- Simple, single button operation
- Sleek, new design incorporates eight fully programmable functions
- Equipped with long-life, user replaceable lithium batteries
- Perfect for panic situations, where seconds count
- Encrypted mode so criminals can't steal the serial number
- Concave keys for better tactile feel in hand
- LED indicates transmission was sent and low battery condition

The six-button wireless remote is a perfect fit for your active lifestyle, because it's security that goes with you – letting you enjoy extra mobility without ever compromising your safety and peace of mind.
